Capital is a tailor-made luxury.
A unique product, in silent connection
with you, your life and your feelings.
Capital is craftsmanship. Products are
true, with all their natural peculiarity
that add value to them.
Capital is passion. Passion for different
culture, design and well-made
production.

These pages contain the new products of the
2023 collection. They represent a new taste,
composed of a calm balance between timeless
class and a push toward the contemporary.

Capital è lusso su misura: un prodotto unico
e personalizzato che dialoga silenziosamente
con lo spazio e con la quotidianità. Capital
è artigianato: i nostri prodotti sono reali e
palpabili, arricchiti dalle loro peculiarità
naturali. Capital è passione. Passione per
diverse culture, per il buon design e per il
fatto a mano.

In queste pagine sono racchiusi i nuovi
prodotti della collezione 2023. Essi
rappresentano un nuovo gusto, composto da
un pacato equilibrio tra classe senza tempo e
spinta verso la contemporaneità.

Capital Home Like No Other.

Exclusive Home,
where contemporary
luxury meets
design.

Our understanding of customized luxury is when design meets customer's personality with a "tailor made" product that belongs only to him. A product can tell people about you, your personality, your taste, your ambition and life attitude. A product can be an invisible and silent emotion in communication with you and you can feel its exclusive charm.
Capital Collection makes emotional and luxurious products while creating a concept of exquisite lifestyle.

Every Capital product present in your home is connected and vibrates with your soul. The imperfections of material, essences, fabrics and marble become a recognizable trace of reality. An expression of the cultural identity perceived in each of us.

Capital identity is the "Made in Italy". Capital means design and production appreciated and recognized all over the world, the result of working with passion. The excellence of Italian manufacturing and culture, the stylistic refinement are visible in every detail.

Capital products are the result of an artisan production process created in an international context taking inspiration from different cultures and countries. Its design is the result of projecting creation of different professional external collaborations supported by Capital Design and Styling Department.

Nell'identità di Capital, il Made in Italy è quel particolare modo di progettare e produrre che il mondo riconosce e apprezza, è frutto dell'eccellenza produttiva della cultura italiana, della raffinatezza stilistica visibile in ogni dettaglio e della passione. I prodotti Capital sono il risultato di un processo produttivo artigianale, progettati in un contesto internazionale ispirato dalle diverse culture di ogni paese. Il design è il risultato della creazione progettuale di prestigiose collaborazioni esterne, integrato e coadiuvato dal Design Styling Department.

Living

Modular sofas, sophisticated love seats and comfortable armchairs together with generously sized tables are the protagonists of the living area. The products arised from different international inspirations, are part of a coordinated and coherent style project.

The space becomes tidy and organized: absolute geometries able to create a dialogue one with each other, allow the cabinet collection to fit with elegance and personality in the environment divided between day and night.

Divani componibili, sofisticati divanetti e avvolgenti poltrone impreziositi da tavolini dalle dimensioni generose sono i protagonisti della zona giorno. I prodotti, nati da diverse ispirazioni internazionali, fanno parte di un progetto di stile coordinato e coerente.

Lo spazio diventa ordinato e organizzato: geometric assolute capaci di dialogare tra loro, permettono alla collezione di mobili di inserirsi con eleganza e personalità nell'ambiente diviso tra giorno e notte.

Cloud Sofa · Mirage Armchair · Grand Coffee Table · Alma Service Table · Celine Column · Eclisse Carpet

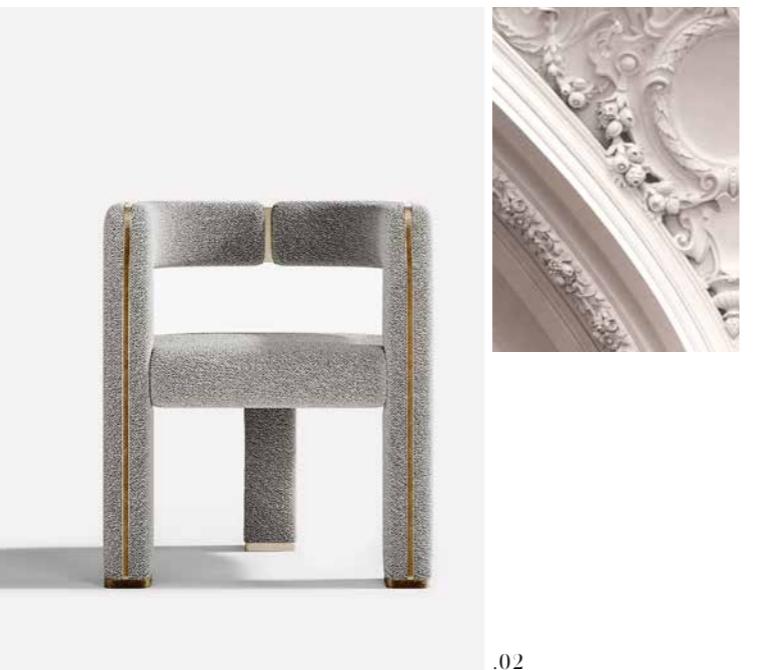

Organic shapes and sartorial attitude come together in a perfect balance in the design of the Cloud sofa.

The haute couture materiality of the bouclé and the contemporaneity of the leather make the Cloud item a transversal and timeless aesthetic product.

Forme organiche e attitudine sartoriale si uniscono in un equilibrio perfetto nel design di Cloud divano.

Matericità haute couture del bouclé e contemporaneità della pelle fanno di Cloud un volume dall'estetica trasversale e timeless.

collection
allure

Allure is designed for an ideal location in the center of the living space. The sofa here takes center stage like the leading actor in a play. In fact, the entire body that wraps and embraces the seat and backrest is emphasized. Two options: upholstered in quilted velvet or quilted leather. The final effect has a strong aesthetic impact and creates a pleasant contrast with the padded seating which have soft and proportionate volumes.

Allure è stato pensato per un'ideale collocazione al centro dello spazio living. Il divano qui è al centro della scena come l'attore protagonista di un'opera teatrale. Ad essere enfatizzata è infatti l'intera scocca che avvolge e abbraccia seduta e schienale. Due le opzioni: rivestita in velluto o pelle trapuntata. L'effetto che ne deriva ha un forte impatto estetico e crea un piacevole contrasto con le parti imbottite che presentano volumi morbidi e proporzionati.

Palladio is a collection composed of sideboard and cabinet, characterized by a window that becomes a decorative element of the doors that can be customized in different finishes: from lacquered to wood, from glass to custom projects. A metal frame outlines the perimeter of the body as a contrast to its internal roundness.

Palladio è una collezione composta da credenza e contenitore, caratterizzata da una finestra che diventa elemento decorativo delle ante personalizzabile in diverse finiture: dal laccato all'essenza, al vetro al progetto custom. Una cornice in metallo descrive il perimetro della scocca ponendosi come contrasto di segno alla sua interna rotondità.

.01

The impressive look of Loïc collection is characterised by the material of the legs, which confer great power to the product and are in perfect formal harmony with the tabletop. Legs horizontal details emphasize the dramatic force of this item thanks to the combination of materials, both traditional, such as wood and marble, and contemporary, like the metallic fittings.

L'imponente presenza di Loïc è caratterizzata dalle gambe materiche, che conferiscono una grande potenza al prodotto e, allo stesso tempo, sono in perfetta armonia formale con il top superiore: Il taglio orizzontale assegna drammaticità e spicca l'insieme grazie all'abbinamento di materiali sia tradizionali, come l'essenza e il marmo e sia contemporanei, come le finiture metalliche.

.01

The Suite bed is born from the desire to create a harmonious product with smooth and contemporary forms, simple lines with details of sartorial quality. The headboard stands out for its sculptural design, where plain finishing, smooth and quilted leather is combined with precious metal insert.

Il letto Suite nasce dal desiderio di creare un prodotto armonioso con forme morbide e contemporanee, umendo linee semplici a dettagli di qualità sartoriale. La testata si distingue per l'accezione scultorea, ma raffinata e morbida, in cui si unisce pelle liscia e cannettata con ottone prezioso.

.01

The lines of the Morfeo bed's headboard converge to the centre, placing the user on an altar of softness and rest; the outer structure, designed with curving tubes and upholstered in leather, recall the gentle horizontal undulation and the diagonal metallic inserts that etch an illusory vanishing point on a two-dimensional canvas.

Le linee della testiera del letto Morfeo convergono al centro, ponendo l'utente su un piano di morbidezza e riposo; la struttura esterna, pensata in tubolare curvato e rivestita in pelle, viene interrotta dai tratti della soffice cannetatura orizzontale e dagli inserti metallici diagonali che imprimono un punto di fuga illusorio su una tela bidimensionale.

The concept for Bolívar is born thinking about physical and visual lightness. The wooden base creates a harmonious marriage with the tabletop: this combination makes a suspended volume that confers an ethereal and mercurial touch to the surrounding space.

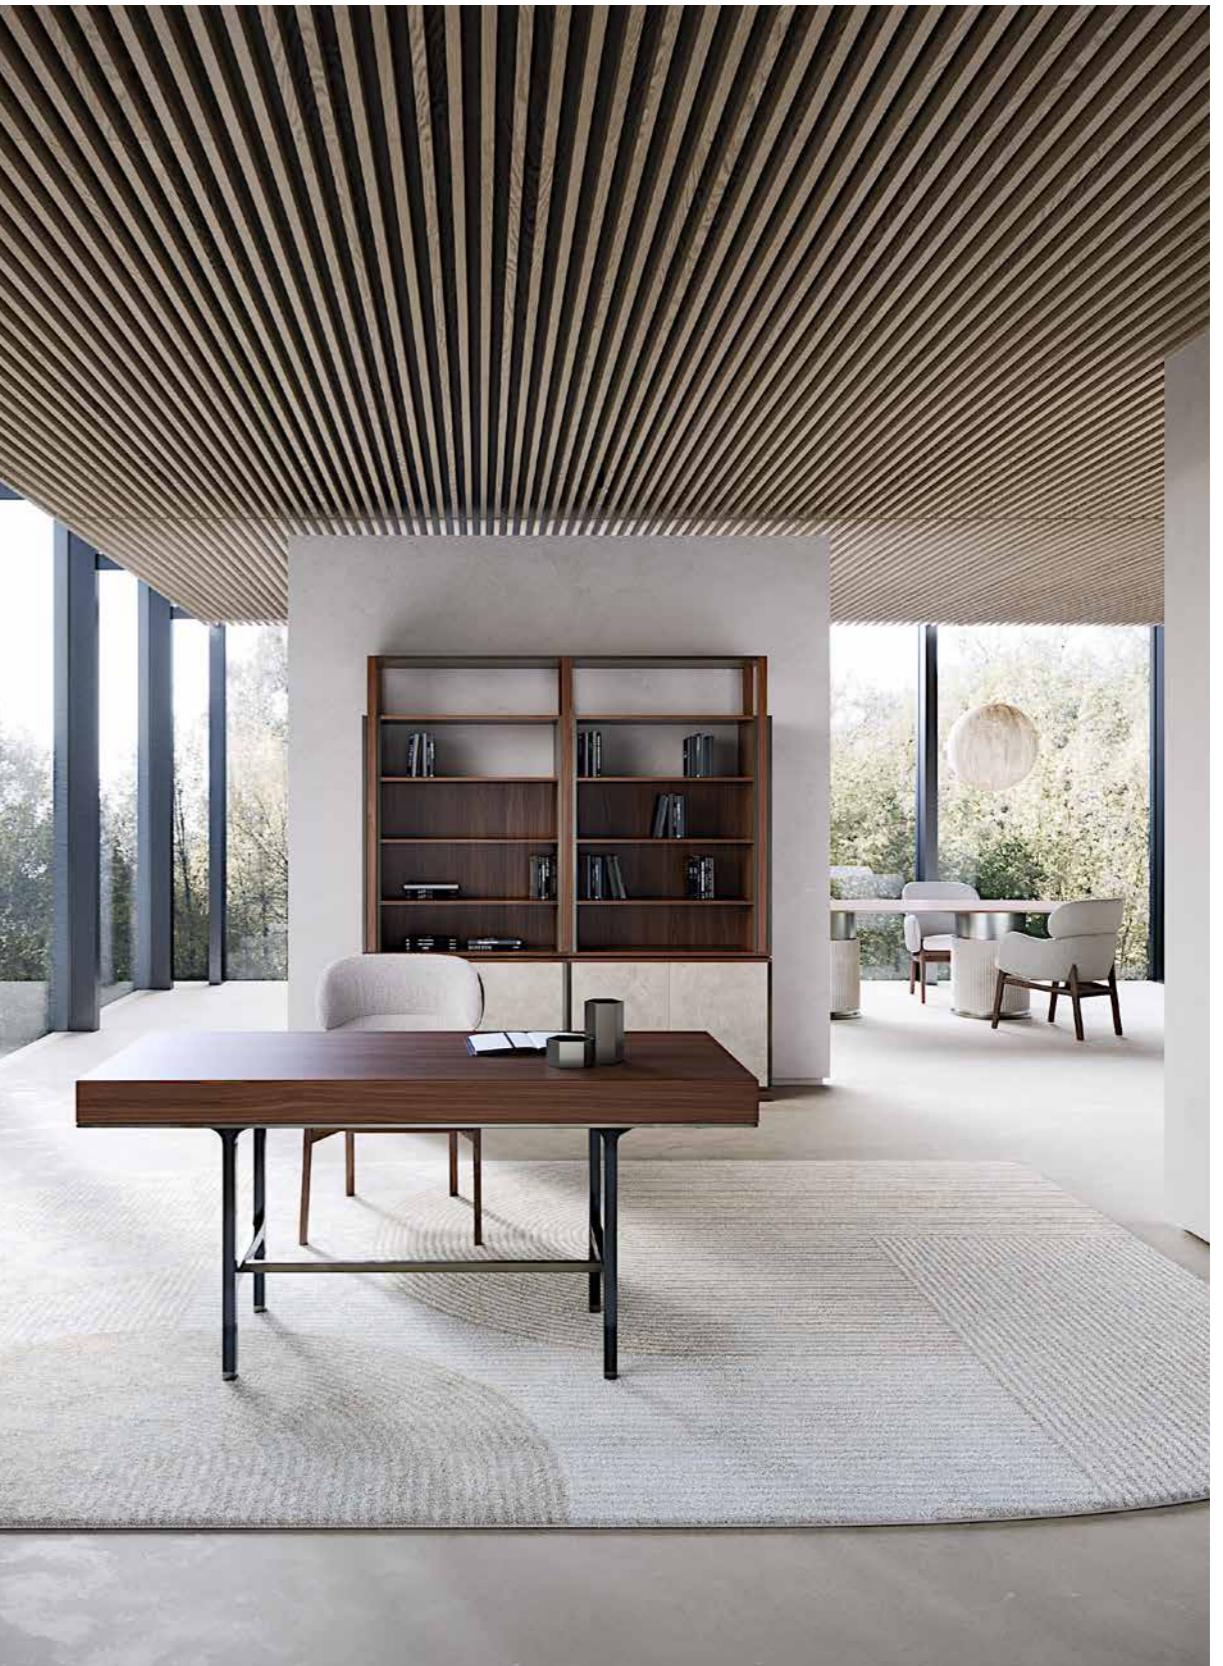

Il concetto di Bolívar è nato pensando all'idea di leggerezza fisica e visiva: la base in essenza crea armonia con il piano d'appoggio; questo connubio permette di simulare un volume sospeso che conferisce un tocco etereo e volubile allo spazio circostante.

.01

Olimpia Writing Desk might be confused with a Hellenic Greek sculpture. The forms recall those of an ancient temple. In fact, the legs are inspired by Doric columns, while the fittings return it to the present and give it a more contemporary appearance.

Olimpia potrebbe confondersi con una scultura della Grecia ellenistica: Le forme richiamano quelle di un tempio antico; infatti, le gambe si ispirano a colonne doriche, mentre le finiture la riportano al presente e le donano un aspetto più contemporaneo.

Fabrics

Fabrics

Tessuti

Fabrics selection deeply influences our sensorial and emotional perception of a space. For this reason it is important to consider not only the aesthetic qualities of the fabric, but also its tactile properties and performance through time. In this way a simple piece of furniture becomes an integral part of the decor.

La scelta dei tessuti influenza profondamente la nostra percezione sensoriale ed emotiva di uno spazio. Per questo è importante considerare non solo le qualità estetiche del tessuto, ma anche le sue proprietà tattili e le prestazioni nel tempo. In questo modo un arredo minimal diventa parte integrante del decoro.

Fabrics

Fabrics

Tessuti

Sophisticated workmanship highlighting the design of an object and exalting the quality of its upholstery serves to emphasize the feeling of the fabric, its texture and the subtle nuances of color.

La sofisticata lavorazione che sottolinea il design di un oggetto ed esalta la qualità del suo rivestimento serve anche a enfatizzare la sensazione al tatto del tessuto, la sua consistenza e le sottili sfumature di colore.

Synthetic Leather

Synthetic Leather
Pelle Sintetica

Made of PU / PVC on cotton satin. It has a "full grain leather" look, a soft and pleasant touch and a grain that is highlighted in a contrasting light opacity. The delicate coloring that focuses on natural colors, together with the resistance to abrasion and fire, make this article the ideal material for elegant and sophisticated environments, both in domestic and contract use.

Synthetic Leather

Realizzato in PVC/PU su raso di cotone presenta un aspetto tipo "pelle pieno fiore", con una mano morbida e piacevole ed una grana che si evidenzia in un leggerissimo contrasto di opacità. La coloritura delicata e calibrata sui colori naturali, assieme alle caratteristiche di resistenza all'abrasione ed al fuoco, rendono l'articolo ideale per ambienti eleganti e raffinati, sia domestici che contract.

The New Headquarter

Designed by Arch. Christian Grande in coordination with Studio Orteschi, the new iconic building with low emissions is built in the west industrial area of Padua. With its 15.000 square meters of total surface and 12 mt of height, the building becomes a space that respects and protects the principles of work-life balance and reduction of environmental impact.

The project signed by Christian Grande Designwork in collaboration with Studio Orteschi takes into account the latest principles of energy, environmental and economic sustainability. A real green building designed to guarantee optimal levels of comfort, reducing consumption.

"Every project, every realization, is possible as an organic system of space, substance and feeling: a tailored suit, adherent."

The new headquarters represent an important challenge for the company in pursuing continuous upgrade, providing new environments and relaunching the company towards international challenges as protagonist. A wider and more efficient space, but mainly aligned to company values, able to consolidate the spirit of cohesion between collaborators and company strong local rooting.

The building will be certified in energy class A3 and will use only refrigerating machines with heat pump for heating the internal environments, thanks to the 350 solar panels; the connection to methane gas network is not present. Energy performance is further improved by a very efficient mechanical ventilation system in internal spaces, equipped with heat recovery systems. There will be many green corners, inside and outside the building, spaces that require low water consumption, with an irrigation system that uses rain sensors and control the degree of humidity of the ground.

In the building there is also a cafeteria and a panoramic rooftop for employees and customers, intended for multifunctional activities.

Progettato dall'Arch. Christian Grande in coordinamento con lo Studio Orteschi, il nuovo iconico edificio a basse emissioni sorge nella zona Industriale Ovest di Padova. Con i suoi 15.000 mq di superficie totale e 12 mt di altezza, l'edificio diventa uno spazio che rispetta e tutela principi di work-life balance e riduzione dell'impatto ambientale.

Il progetto firmato Christian Grande DesignWork in collaborazione con lo Studio Orteschi tiene conto dei più recenti principi di sostenibilità energetica, ambientale ed economica. Un vero e proprio edificio green pensato per garantire livelli ottimali di comfort, riducendo i consumi.

"Ogni progetto, ogni realizzazione, si pone come un sistema organico di spazio, sostanza e sensazione: un abito su misura."

La nuova sede rappresenta un'importante sfida per l'azienda nel perseguire un continuo aggiornarsi, dotarsi di nuovi ambienti e rilanciare la società verso sfide internazionali che la vedono protagonista.

L'edificio sarà certificato in classe energetica A3 e utilizza solamente macchine frigorifere in pompa di calore per il riscaldamento degli ambienti interni grazie ai 350 pannelli solari, non è infatti presente l'allaccio alla rete gas metano.

La prestazione energetica è ulteriormente migliorata da un sistema molto efficiente di ventilazione meccanica degli spazi interni, dotato di sistemi di recupero del calore. Molti saranno gli angoli verdi presenti all'interno ed all'esterno della sede, spazi verdi che richiedono bassi consumi idrici, mantenuti da un sistema di irrigazione che sfrutta sensori di pioggia e monitora il grado di umidità del suolo.

L'edificio ospita inoltre una caffetteria e un rooftop panoramico aperti ai dipendenti e ai clienti, destinati ad attività multifunzionali.
